DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I – claims 1-3 in the reply filed on 9/28/06 is acknowledged. The traversal is on the ground(s) that examination of the subject matter recited in the claims of Groups I-V would not place a substantially greater burden on the Examiner. This is not found persuasive because the inventions in Groups I-V are directed to different methods with different steps. Each method would require a different search strategy with different search terms on commercial data bases.

The requirement is still deemed proper and is therefore made FINAL.

Claims 4-30 are withdrawn from consideration.

Claim Rejections - 35 USC § 112

2. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is vague. While the preamble of the claim recites a method for preparing a substrate for detection of analyte, the body of the claim fails to recite any actual step for preparing a substrate. Step (c) recites "preparing a substrate" but its not clear as to what is being done to "prepare" the substrate for detection of the analyte.

Claim 3 is vague because it is not clear as to how the substrate is "prepared".
